Dear Ms. Franco:

Thank you for your October 25, 1991 letter regarding permission to reproduce copies of articles from Academic Press journals. Because our publications are protected by U.S. copyright law, you are correct in your assumption that permission must be obtained from the copyright holder prior to any photocopies being made. Unfortunately, we do not grant "blanket" permission but will be happy to consider individual requests to reproduce specific articles. Please send such requests to my attention at our address in Orlando, as above, and be certain to include the complete citations for the articles you need, with the number of copies required.

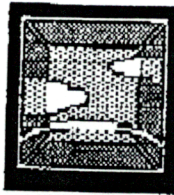

Sincerely,

Dear Sirs:

The Library System of the Catholic University of Chile (SIBUC) is considered one of the largest and most important University Libraries of the country.

The students and professors of our University are our main users, but we have a number of external users that would be very enthusiastic about the possibility of obtaining copies of some particular journal's articles that are of special interest for them. They are a reduce number of persons, that besides of subscribing some periodical titles that are essential for their tasks, they require some complementary information from time to time.

Through the subscriptions that SIBUC keeps with the suppliers of your publications, we have found out that this service may not be allowed by your country legislation.

We would like to know if we can give this service and if there are copyright costs involved.

If you require more information, please contact me in the Fax Nº 56-2-5521415.

Looking forward to hear from you soon, I remain.

Yours sincerely,

  
**MARIA LUISA ARENAS FRANCO**
